Description			
Mozilla made authoring tool for hubs already: https://hubs.mozilla.com/spoke Exporter seems to be in Editor.js starting around line 340 https://github.com/mozilla/Spoke/blob/master/src/editor/Editor.js And it seems to export GLTF:			
<pre>const exporter = new GLTFExporter({ mode: "glb", onlyVisible: false, includeCustomExtensions: true, animations });</pre>			
See how it can be integrated into VRSpace.
