<b>Description</b>			
<p>I was trying to work through VRspace as a virtual print factory Like a VR environment where as if I was a project manager in VR I could drag and drop job tickets over the top of virtual machines And the operators the ground with the actual printer would know what job is next I'm working on that now without VR... but it would be an amazing presentation</p> <p>Warehouse: <a href="https://sketchfab.com/3d-models/warehouse-building-0c37b0f92cb54e07a1e1c6c3df9f8439">https://sketchfab.com/3d-models/warehouse-building-0c37b0f92cb54e07a1e1c6c3df9f8439</a></p> <p>for now we can just use a box as representation of a machine....</p>
